1. Description of data / data elements to be shared

The Health Home Service Providers Map dashboard displays the locations, coverage areas, and other pertinent information of organizations providing health home services, as detailed below.

The Health Home program provides care coordination of medical, behavioral health, and long-term services and supports through connecting a network of local organizations and agencies in working together.

For information about what the Health Home program is, see our Health Home page on the Health Care Authority's (HCA) webpage.

Measure	Description
Health Home lead	An entity qualified by the State to administer the Health Home (HH) program to eligible individuals. The HH Lead may be a community-based organization (CBO) or a managed care organization (MCO).
County served	The county in which the care coordination organization (CCO) provides Health Home services.
Care coordination organization (CCO)	Qualified community-based organizations who are subcontracted with Health Home lead organizations to directly provide clients with Health Home program services.
CCO language specialties	The languages spoken by a care coordinator employed with the care coordination organization (CCO). Interpreters are available for all HH services.
Medical provider	Licensed provider that provides medical health care services.
Pediatric provider	Service provider who has special training in preventing, diagnosing, and treating diseases and injuries in children.
Federally Qualified Health Center (FQHC) provider	Federally Qualified Health Centers provide primary care and preventive care. Services may include dental, mental health, and substance abuse services regardless of the patient's ability to pay.
Long-term services and supports (LTSS) provider	A provider who offers long-term service and supports including care management assistance for the coordination of institutional care and community services.
Mental health provider	Service providers who provide mental health treatment.
Substance use disorder (SUD) provider	Service providers who provide substance use treatment.
Social service provider	Social service providers include any governmental or nongovernmental public service programs that offer benefits and services around a host of basic human needs.

2. Inclusion/exclusion criteria

Providers who are contracted or subcontracted with the Health Care Authority (HCA) to administer or directly provide the Health Home program and services are included on this service providers map dashboard.

The dates included in the dashboard are based on calendar quarter, covering the timeframe of October 2022 through December 2022 for current Health Home providers.

3. Data source(s)

The data is submitted by Health Home leads to the Department of Social and Health Services (DSHS) – Aging and Long-Term Support Administration (ALTSa) as part of their contractual requirements to remain a qualified Health Home services provider. DSHS-ALTSa collates and manages the data used in this service providers map dashboard.

4. Date product created and refresh cycle

Dashboard created on March 24, 2020. Data on the dashboard is refreshed on a quarterly basis.

5. Additional details

The [Health Home Service Providers Map](#) is provided on HCA's website as a Tableau Dynamic Dashboard.
